RESUMEN EJECUTIVO

Senior Civil Engineer with a PMI Master's degree and specialization in HS (Health and Safety), Over 20 years of international experience in construction and project management, with a proven track record of successfully implementing integrated management systems based on ISO 9001, ISO 14001, and ISO 45001 standards, ensuring regulatory compliance and operational excellence; plus 5 years of experience as a manager and sales manager in Spain. Recognized for mitigating risks, improving safety performance, and driving successful certification for multi-million-dollar projects.

CORE COMPETENCIES

- Sales management / Sales closer
- Integrated Management Systems (IMS)
- HSEQ leadership and strategy (Health, Safety, Environment, and Quality)
- Compliance with ISO 9001, ISO 14001, and ISO 45001 standards
- Risk management and occupational health and safety
- Environmental management systems

PROFESSIONAL EXPERIENCE

QHSE Consultant / Independent Consultant - Córdoba, Argentina **06/2025 – Current**

- Provided consultancy services to CEES SA, achievement of ISO 9001/14001/45001 certification (TÜV Rheinland).
- Conducted an internal audit of the Integrated Management System (IMS) at CEES SA, identifying non-conformities.
- Developed and optimized HSEQ documentation systems, improving reporting efficiency and audit readiness
- Advised clients on regulatory compliance, risk mitigation, and operational safety improvement

Commercial Advisor (HSEQ) / Laboral Group - Barcelona, Spain **09/2022 – 05/2025**

- Generated new business by promoting HSEQ consulting and risk prevention services
- Delivered tailored solutions in occupational health & safety and compliance training
- Provided technical advisory to clients on regulatory requirements and ISO standards
- Increased client acquisition and retention through consultative sales approach

Technnical Office Manager / INECO S.A.- Martorell (Barcelona), Spain **01/2022 – 07/2022**

- Supported the implementation of measurement and certification procedures for railway infrastructure projects.
- Contributed to the Construction Control Assistance (ACO) team within the Mediterranean Corridor program.
- Ensured compliance with ADIF standards and technical documentation requirements.
- Coordinated with multidisciplinary teams for project monitoring and report preparation.

Agency Director / Prevensystem - Barcelona, Spain **07/2020 - 08/2022**

- Directed regional operations, managing commercial growth and service delivery
- Expanded client portfolio through strategic sales and consulting initiatives
- Delivered advisory services on ISO standards, data protection, and compliance
- Led business development and operational performance of the agency

Quality Advisor / APIALIA, S.A.- Barcelona, Spain **07/2021 – 12/2021**

- Management system covering all company operations.
- In-person training programs were conducted, improving the system and regulatory compliance.
- An internal audit was performed, identifying deficiencies and supporting corrective action plans.
- Alignment with quality standards and continuous improvement practices was ensured.

Site Construction Manager/Vials i Medi Ambient(Marco Group)-Granollers(Barcelona).Spain **02/2020 - 05/2020**

- Led construction execution of a 48-unit residential project (€multi-million)
- Managed procurement, subcontractors, and project timelines
- Implemented Integrated Management System (IMS) on-site
- Ensured full compliance with ISO 9001, ISO 14001, and ISO 45001 standards

HSEQ Engineer / Construcciones Rubau - Barcelona, Spain ***02/2019 - 07/2019***

- Implemented HSEQ systems for AENA airport infrastructure project (€2.5M)
- Monitored KPIs and improved safety and environmental performance
- Managed audit documentation for ISO 9001, ISO 14001, and ISO 45001
- Achieved successful internal audit with full compliance and on-time delivery

IMS Manager / HSEQ Lead / OHL (Obrascón Huarte Lain) - Argentina & Uruguay **07/2010 - 05/2018**

- Led implementation of Integrated Management Systems across multiple countries
- Achieved ISO 9001, ISO 14001, and OHSAS 18001/ISO 45001 certifications
- Developed performance evaluation systems and improved safety reporting tools
- Managed audits, training programs, and cross-functional HSEQ teams
- Presented at international OHS conference of OHL Group (Chile 2014, Uruguay & Argentina 2017)

Head of Safety, Quality & Environment / OHL / OHL-TEXIMCO-UTE - Córdoba, Argentina

07/2007 - 06/2010

- Reduced workplace accident rates by 30% within first year
- Implemented HSEQ systems across major construction projects
- Improved supplier evaluation and subcontractor performance processes
- Reduced production of the own concrete plant costs by 15% through operational optimization

Environmental Advisor / INVAP S.E. - ARSAT S.A.- Argentina **06/2012 – 10/2014**

- Developed environmental impact assessments for Digital Terrestrial Television (DTT) infrastructure projects.
- Prepared technical documentation and regulatory applications for national environmental approval.
- Coordinated environmental compliance for multi-site telecommunications facilities.
- Secured project authorization from the relevant regulatory authorities.

Project Construction Manager / OHL – Jujuy, Argentina **08/2010 – 12/2010**

- Managed the planning, budgeting, and execution of the hospital construction project.
- Led negotiations with subcontractors regarding health, safety, environment, and quality (HSEQ).
- Coordinated client relations, certifications, and monthly financial closeouts.
- Completed the demolition phase (12,000 m²) in 2.5 months with zero accidents.
- Executed earthworks and foundation work on schedule and within budget.

Head of Safety, Quality & Environment / OHL / OHL-TEXIMCO-UTE - Córdoba, Argentina **07/2007 - 06/2010**

- Reduced workplace accident rates by 30% within first year
- Implemented HSEQ systems across major construction projects
- Improved supplier evaluation and subcontractor performance processes
- Reduced production of the own concrete plant costs by 15% through operational optimization

Project Construction Manager / OHL-TEXIMCO UTE – Córdoba, Argentina **12/2006 – 06/2007**

- Managed the initial construction phase of two multi-story hospital projects (totaling €18 million).
- Led on-site operations, including tower crane installation, structural work, and scheduling.
- Coordinated project execution, subcontractors, and timelines.
- Ensured full compliance with budget, schedule, and quality requirements.
- The initial phase was delivered on time, within budget, and without accidents.

VIAS Y CONSTRUCCIONES, S .A. (ACS Group)– Barcelona, España **08/2005 – 10/2006**

- Managed civil infrastructure projects: project planning, HSEQ, and subcontractor and client relations.
- Directed accessibility improvement works at the Sagrada Familia metro station (€2.5M).
- Executed heavy machinery operations just 3 meters from the Sagrada Familia Basilica, with no incidents.
- Executed a 300-meter cut-and-cover tunnel (€6.5M) beneath the Ronda Litoral and 24 RENFE railway tracks.
- Coordinated critical concrete pouring operations and the accelerated reopening of road and rail traffic, meeting all deadlines.

Technnical Office Manager / CONSTRUCTORA HISPÁNICA S.A.- Barcelona, Spain **10/2004 – 08/2005**

- Led the technical office team for infrastructure, structures, and embankments up to the AVE sub-baslast (€55M).
- Coordinated external consultants for the structural redesign of viaducts and civil works.
- Managed technical documentation, design adaptations, and on-site project coordination.
- Contributed to the execution of complex structures, including multi-span viaducts and drainage systems.
- Successfully aligned redesign solutions with the construction and HSEQ teams.

Project Engineering Manager / GPO Ingeniería - Barcelona, Spain **03/2002 - 08/2004**

- Led a team of 8 engineers in the execution of major road infrastructure design projects.
- Managed the full project lifecycle, including budgeting and planning.
- Prepared health and safety studies, earthworks documentation, and project appendices.
- Coordinated with clients and addressed technical review processes.
- Delivered projects on time and to the client's complete satisfaction.

Project Construction Manager / KANTOR-CIDEM - UTE – Córdoba, Argentina **01/2001 – 12/2001**

- Construction management and coordination for a stormwater collection network, pumping chamber (4 x 65 kW).
- Integrated management of civil works, planning, contractor supervision, quality control, safety, and schedule.
- Coordination of technical and operational resources for the efficient execution of hydraulic infrastructure.
- Project completion within the contractual timeframe and with a zero-accident record (€2.1M€).

MONTALDO CONSTRUCCIUCIONES S.A. – Córdoba, Argentina **08/20000 – 12/2000**

- Construction management and coordination of a 1.400 m² supermarket, steel-structure building & outdoor parking.
- Civil works, including planning, contractor supervision, and control of schedules, quality and safety.
- Coordination of technical and operational resources for the efficient execution of the commercial project.
- Project completion within the contractual timeframe and with zero accidents; total project value: €1.8M€).

Site Engineer – Budgets a & Tenders / OTTONELLO-SANTORO SAC - Argentina **01/1992 – 06/2000**

- Led the management and execution of major infrastructure projects in Argentina.
- Prepared technical, legal, and financial documentation for public tenders (national and international).
- Managed cost estimation, budgeting, and contract negotiations.
- Managed multiple infrastructure projects (roads, drainage systems, bridges) totaling €16 M€).
- Improved project margins by 8% to 12% and implemented digital tools to optimize operational efficiency.

EDUCATION

- **U del Closer training** **2026**
- **Full Stack Developer Course** **2025**
  Henry Academy – Argentina
- **Master degreees degree in 'Project Manager (PMI)** **2021**
  Nebrija University – Spain – IMF Business School
- **Postgraduate: Hygiene & Safety at Work** **2014**
  National Technological University – Argentina
- **Diploma: Quality Management** **2013**

National Technological University – Argentina

- **Quality Management Course** **2012**
  National Technological University – Argentina
- **Engineering Degree: Civil Engineering (Roads, Channels & Ports)** **2007**
  Polytechnic University of Catalonia – Spain
- **Bachelor's Degree: Civil Engineer (Transportation)** **1992**
  University of Buenos Aires – Argentina

TECHNNICAL SKILLS

Software: MS Office, MS Project, AutoCAD, Presto / Programming: JavaScript, TypeScript, NestJS, NextJS.

Systems: IMS, HSEQ Reporting Tools, Audit Frameworks

KEY ACHIEVEMENTS

- As a consultant for CEES SA, he secured certification for the ISO 9001/14001/45001 standards (TÜV Rheinland).
- Consistent annual portfolio growth of 20%
- 35% success rate for low-ticket ítems
- 50% success rate for high-ticket items
- Successfully managed internal audits for companies in Spain (APIALIA SLU) and Argentina (CEES S.A.).
- As Integrated Management System (IMS) Manager for OHL Construcción (OHLA Group) in Argentina and Uruguay, my team and I successfully passed external certification and maintenance audits with TÜV Rheinland (2012–2014) and SGS (2017).
- Achieved 100% audit compliance across major infrastructure projects.
- Reduced the incident rate by 30% through the implementation of the IMS.
- Led the team responsible for concreting a 450 m³ slab in 3.5 hours for a cut-and-cover tunnel project in Barcelona (featuring a pile-wall structure), allowing the Ronda Litoral highway to reopen to traffic just 7 days later.
- On another section involving walls and prestressed beams, oversaw the concreting of a compression slab and opened the line to rail traffic just 5 days later, with no reported incidents.
- Successfully coordinated external consultants while serving as Technical Office Manager for the construction of the AVE high-speed rail line to France (covering works ranging from the sub-grade and sub-ballast layers to structures and drainage systems).
- Delivered three highway construction projects on schedule in the provinces of Barcelona, Tarragona, and Huesca, leading a team of seven technical specialists.
